

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of PACIFIC GAS AND ELECTRIC
COMPANY, a California Corporation, for a
Permit To Construct the Atlantic-Del Mar
Reinforcement Project Pursuant to General Order
131-D.

(U 39 E)

Application 01-07-004
(Filed July 9, 2001)

**ADMINISTRATIVE LAW JUDGE'S RULING
REQUIRING THE CITY OF ROCKLIN
TO SUBMIT ADDITIONAL INFORMATION**

By this application, Pacific Gas and Electric Company (PG&E) seeks a permit to construct additional transmission capacity in the Rocklin and Roseville area. The Atlantic-Del Mar Reinforcement Project would result in the construction of approximately 4.1 miles of new single circuit 60-kilovolt electric power line, installation of a new circuit breaker at Atlantic Substation and a new switch at Del Mar Substation. The project is located approximately 15 miles northeast of Sacramento. In conjunction with its application, PG&E filed its Proponent's Environmental Assessment. The Commission's Energy Division is conducting an independent environmental review of PG&E's proposed project.

At the prehearing conference (PHC) held on October 25, 2001, the City of Rocklin (Rocklin) asserted that we should factor prior actions by the city and redevelopment agency into our decision on whether or not to grant the permit to construct. I find that the following information is relevant and direct Rocklin to file a response to this ruling including such information no later than December 19, 2001:

- A copy of the Redevelopment Plan and Downtown Revitalization Plan (described by Deputy City Attorney Russell Hildebrand at the PHC at RT 7:15);
- A copy of the relevant portions of Rocklin's General Plan, or other relevant planning documents, that describe the zoning limitations or requirements for the portions of PG&E's proposed project within the City of Rocklin (including a copy of the cover page of the original document if excerpts are utilized);
- A statement describing the boundaries relevant to the Redevelopment Plan and Downtown Revitalization Plan and the status of their implementation;
- A description of the implementation status of the Front Street Historical Area Master Plan; and
- A declaration by the appropriate Rocklin official attesting to the accuracy of the information provided.

By this ruling, I notify the parties that the Commission intends to take official notice of Union Pacific Railroad's Engineering Specifications for the installation of utility lines within railroad right of way. A copy of the specifications is attached to this ruling as Attachment A, and can be accessed electronically at <http://www.uprr.com/reus/wireline/wirespec.shtml>. This information will allow us to assess the safety impacts on the community of the proposed line's placement within the railroad right of way.

Therefore, **IT IS RULED** that:

1. The City of Rocklin shall file and serve the following information on the official service list no later than December 21, 2001:

- A copy of the Redevelopment Plan and Downtown Revitalization Plan (described by Deputy City Attorney Russell Hildebrand at the PHC at RT 7:15);
- A copy of the relevant portions of Rocklin's General Plan, or other relevant planning documents, that describe the zoning limitations or

requirements for the portions of PG&E's proposed project within the City of Rocklin (including a copy of the cover page of the original document if excerpts are utilized);

- A statement describing the boundaries relevant to the Redevelopment Plan and Downtown Revitalization Plan and the status of their implementation;
- A description of the implementation status of the Front Street Historical Area Master Plan; and
- A declaration by the appropriate Rocklin official attesting to the accuracy of the information provided.

Dated November 29, 2001, at San Francisco, California.
